Jameson Canyon Safety Improvements Construction Phase Along Highway 12 Starting

Napa and Solano Counties – The California Department of Transportation (Caltrans), the Solano Transportation Authority (STA), and the Napa County Transportation and Planning Agency (NCTPA) are scheduled to begin work on the Highway 12 Jameson Canyon Road Widening Project on Monday, January 23rd.

The first phase of construction will require the removal of some trees directly adjacent to the roadway. To ensure worker and public safety during the tree removal, the westbound shoulder of Highway 12 near Red Top Road is scheduled to be closed starting Monday, January 23rd between 5a.m. and 6p.m. This first phase of work is scheduled to be completed Friday, January 27th, weather permitting.

The Jameson Canyon Project will widen Highway 12 from two to four lanes and install a concrete median along 5.8 miles of Highway 12 in Napa and Solano Counties. The improvements will affect Highway 12 from Highway 12 and Highway 29 in Napa County to Highway 12 and Red Top Road in Solano County.

Public meetings regarding the project will be held in the upcoming months. Caltrans will provide additional information regarding meetings, construction, and closures as it becomes available.

Once the project is complete in 2015, it will improve safety and travel times in the region.

Please drive cautiously through the construction zone and leave a safe traveling distance between your vehicle and the vehicle ahead of you. Caltrans appreciates your patience as we work to improve the highways. Please remember to “Slow for the Cone Zone.”
